

February 13, 2020

Reminders:

Join us in Toronto at WaterDocs, March 25-29. The Blue Community Project is a sponsor of this year's festival. Email Paul Baines for a complimentary festival pass at: blue.communities.now@gmail.com. At the evening screening on Saturday, March 28th, we will have an information table and will share a few words about our Blue Community work to the audience. Hope to see many of you there.

WaterDocs has partnered with [Cinefest Sudbury International Film Festival](#) to present their very first Cinema Sit-in, a one-of-a-kind cinema event in celebration of the planet that aims to expand environmental and climate literacy. See the Canadian premiere of Little Yellow Boots - a feature documentary that weaves together a story of family, personal loss, and the positive difference each of us can make in the world.

Join us in London at Go Wild, Grow Wild Green Expo, April 18th. We will have a table at this large expo to engage people about their impacts on and responsibilities to water. Let Paul know if you plan to attend and want to help staff the table. A great way to survey some of the many environmental efforts happening in London.

Event:

Join the movement in Toronto and say no to Nestlé on February 27.

Save Our Water is going to the Ontario Legislative Assembly to present its petition about corporate bottled water expansion. Join with many others for this historic day. See the itinerary and sign up (or let Paul Baines know) so that they can be ready to welcome us.
